The Ultimate
Composite Door Collection

Standard Colour Range

Our colour collection has been specially designed to help you put together the perfect colour palette for your door. Every home is different and our beautiful range of colours combines both muted heritage shades and bolder vibrant options, to harmonise with your home. Keeping your Ultimate Collection Composite Door looking good for years to come.

Our standard colour options are quite varied and can cover most tastes. Doors are white internally as standard. Oak and Rosewood effects are stained and lacquered.

Blue | Red | Green | Black | White | Golden Oak | Rosewood

Custom Colour Range

Our custom colour options below opens up a world of choice. The Ultimate Collection Composite Doors can also be colour matched to any specific RAL colour provided. There are over 2530 RAL colours to choose from, each choice includes a 10 year guarantee.

Anthracite Grey | Light Grey | Traffic Grey | Mouse Grey | Black Grey

Colours shown in our brochures and point of sale materials are for guidance only, and are a fair representation, not an exact match. All images are as accurate as photographic and printing processes allow. There will be a difference between a colour printed, a colour displayed on a digital device and a colour sprayed onto a GRP skin or PVC Frame.

Agate Grey | Silk Grey | Dusky Pink | Sable | Honey Beige | Slate Grey | Duck Egg | Cream | Leaf Green | Traffic Green

Pastel Green | Pastel Turquoise | Turquoise Blue | Distant Blue | Ultramarine Blue | Azure Blue | Sky Blue | Pastel Blue | Chartwell Green | Pastel Violet

Blue Lilac | Signal Violet | Purple Violet | Red Violet | Wine Red | Ruby Red | Traffic Red | Vermillion | Dahlia Yellow | Rapeseed Yellow

Frame Options

Standard PVC-U Frame

We offer a choice of Duraflex featured or Eurocell chamfered 70mm door framing options, delivering the flexibility to match door designs into most window systems. Choose either a smooth PVCu or woodgrain effect foiled frame.

The woodgrain effect is achieved with a special foil and is available in a variety of finishes, all of which can have the finish to both inside and outside or just to the outside. Finishes include: White PVCu (no foil), Rosewood, Golden Oak, Black, Anthracite Grey, Cream and White woodgrain.

Custom Frame

Colour-matched to the door with a special foil and paint finish.Different door/frame colours can be chosen to further personalise your door.

Our custom colours offer the same world of choice as the custom door colour range, in fact they are identical paint finishes. They are applied to a woodgrain effect foil to ensure an authentic look and feel. We also guarantee the paint finish on our frames for 10 years.

£5000 GUARANTEE

We are confident in the exceptional strength that the APECS AP and the ILH Duplex Lock offer when used together, that we are offering a break in guarantee of up to £5000 for your maximum peace of mind (T&Cs apply).

THIS MEANS THAT IF ONE OF THESE PRODUCTS FAIL AS A RESULT OF A BREAK IN, WE WILL GIVE YOU UP TO £5000 COMPENSATION.

APECS®

Ingenious Locks & Hardware

INGENIOUS DUPLEX LOCK

PROVIDING OPTIMAL PEACE OF MIND, THE INGENIOUS DUPLEX MULTI-POINT LOCK RANGE FEATURES INTELLIGENTLY DESIGNED MULTI-POINT LOCK TECHNOLOGY. RECOGNISED BY THE POLICE AS OFFERING THE HIGHEST LEVELS OF SECURITY. IT FEATURES A STATE OF THE ART CENTRE GEARBOX AT ITS HEART AND THE MECHANISM OF THE LOCK IS PACKED WITH FEATURES THAT GIVE THE END USER COMPLETE PEACE OF MIND.

Rigorously tested and boasting impressive durability, this fantastic door lock features two sets of opposing hooks for added functionality allowing it to fit seamlessly into the door. An ergonomically designed hold back snib on the faceplate prevents accidental lock outs whilst the use of the very latest high specification materials and manufacturing techniques have been utilised to provide smooth, flawless operation. The Ingenious lock range is covered by a 10 year mechanical guarantee.

PAS 24

APECS AP CYLINDER

THIS CYLINDER HAS BEEN DEVELOPED TO OFFER THE HIGHEST LEVEL OF SECURITY AGAINST FORCED ENTRY CAUSED BY A RANGE OF METHODS, INCLUDING DRILLING, PLUG-EXTRACTION, PICKING, BUMPING AND LOCK SNAPPING - THE MOST PREVALENT METHOD OF ATTACK IN A BREAK-IN.

Designed with a unique sacrificial point, it is engineered to snap in a manner that doesn't allow further damage to the lock inside. Featuring an interlocking mechanism with a unique cam protection block and operable from inside when the lock is tampered with externally, it also comes with a 5-year guarantee for added peace of mind.

The APECS AP also benefits from a double locking mechanism with additional track rail pins and a patent pending ball-bearing connection which ensures additional operation smoothness and a strong fixing between the cylinder core and the cam.

Ingenious Locks & Hardware

Autolock

The Ingenious ‘Autolock’ option is an exceptional new development in lock design. Designed with the user in mind, it is immensely strong and so easy to use you don’t even have to think about it!

Simply shutting a door with Autolock engages each latch firmly into place, no required lever lifting to engage the locking mechanism.

Hardware Options

For the ultimate in bespoke doors and for the more discerning buyer, we offer our fully suited collection of top quality handles, letterboxes and door knockers in a range of colours. Spy holes, letters and numerals are also available. The Ultimate Collection comes with a 10 year mechanical guarantee.

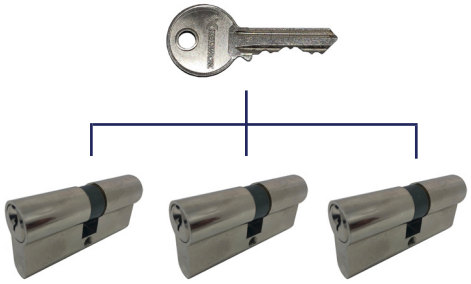
Locking Options

Standard Cylinders

Cylinders offer varying levels of security. Our 6-pin anti-drill/pick cylinder is one of the UK's biggest selling products and features protection to deter most amateur intruders.

'Keyed Alike' Cylinders

Any of our cylinders can be 'keyed alike' to another. So if you are replacing two doors and want to keep your key ring to a minimum by specifying keyed alike, for a small charge, one set of keys will lock 2 or more doors.



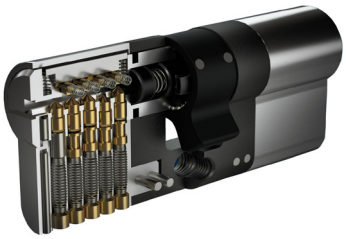
Ingenious Locks & Hardware

Ingenious Multi-Point Door Lock*

The Ingenious multi-point door lock features 4 opposing 'pincer' action hook sets, a centre hook deadbolt and a sprung latch. Manufactured from stainless steel, its construction is thoroughly tested to last a lifetime.

APECS AP Cylinder*

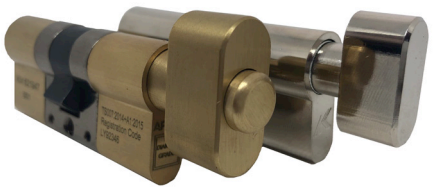
The APECS AP Cylinder is independently tested and a fully accredited 3 star security product with British Standard Institute TS007 accreditation. Capable of withstanding a variety of attack methods, this cylinder will deter the most determined burglars.



Thumb-Turn Cylinders

No key is needed to lock the door from the inside and so as well as convenience you have safety built-in, in the event of a fire. NHBC recommendations include the use of thumb turns on all new build houses.

Thumb-turn versions of our cylinders are available to choose and the same security upgrades also apply. Our high security Ingenious cylinder is available as Thumb-turn in both brass and nickel finish to suit your hardware choice.



3* Thumb-Turn

Standard Thumb-Turn

Autolock

There are two Autolock options. Both designed for the contemporary range of doors where bar handles, finger pulls or escutcheons are used instead of standard door handles.

The Heritage Autolock positions the locking cylinder at a more traditional shoulder level. The Contemporary is situated slightly lower from the middle of the door.

Contemporary

***Both Ingenious Multi-Point Lock & APECS AP Cylinder are required for the £5000 Guarantee**

Bar Handles

The Round Stainless Steel Bar Handle is available in 400mm, 600mm, 900mm, 1200mm, 1500mm and 1800mm lengths. The Equiangular Stainless Steel Bar Handle is available at 1200mm and only as a pair (internal and external). The entire range is manufactured from 316 grade Stainless Steel for ultimate corrosion resistance.

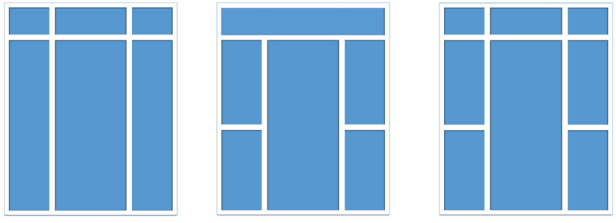
Side Panels, Flag & Top Lights

All Ultimate Collection Composite Doors can be supplied with side panels, flags and top lights. Each one is custom made to your required size, colour and either welded or coupled. What better way to maximise the light and make a statement to the entrance of your property.



Composite Side Panels

Side panels can add the ultimate finishing touch to a grand entrance. Your installer will be able to advise on sizes and limitations on configurations and designs. All of our colour options can be applied to both side panels and frames.
